

The Standard Extends Christmas Greetings To Everyone

HOCKEY NOTES

Hockey Season is ushered in with enthusiasm by our local sportsmen. Due to mild weather the hockey season has been comparatively late in starting, however this delay seems to have aroused a little more enthusiasm in the fans and players alike. Old King Winter having at last paid his tribute by giving us a fine shattering of ice in the local arena all clubs are settling down to business, and once again we hear the strains of the Good Old Summer Time, mixed with the clash of sticks from practices at the rink. This famous combination has brought a smile to more than one fan, but Mr. Molteni insists that the old favorite of his makes the practice much more pleasant on cold winter days.

The Intermediate Redwings, our last season's Southern champions are once again organized and more determined than ever to bring the old battered mug to Strathmore. Good luck to them! The team was organized as follows: President, Mayor Hughes, George Groux, Secretary, L. Hill, Coach, George Groux, Captain, Charlie Groux.

The team—G. Groux, L. Van Tighem, C. Groux, W. Hildy, A. Mainberg, W. Downey, J. Crellin, D. Mainberg, E. Collison, G. Groux, W. Groux.

The team's latest additions are two former High River Flyers, Al Mainberg, defense, and Doug Mainberg, centre.

So Hockey Fans, you can expect a real season for 1937.

The Junior, Juvenile and Midget Hockey Clubs were also reorganized at a meeting held in the Town Hall last Thursday. There were over 100 members present and the officers were elected as follows: President, A. Fraser, Executive, Mayor Hughes, Gray, Jr., W. I. McKennie, Van Tighem, E. F. Cameron. Other officers appointed were Vice-President, W. I. McKennie, Treasurer, A. Garrett, Secretary, W. Hildy and Coach for Juniors, Juveniles and Midgets, are L. Van Tighem, Alde Gray, Jr. and E. F. Cameron respectively. We hope these clubs will give a creditable account of themselves during this season.

HOCKEY GAME

Strathmore Wings down Calgary Spartans 3-1.

In the first exhibition tilt of the season the local intermediates came out in fine style to defeat Calgary Spartans last Saturday night in the local arena. It was a fine opener and about 200 fans were present.

In the first period the locals very definitely dominated the play finishing that frame with a 2-0 lead. At the two goals there was a touch of tag. Both teams showed a flashiness in accurate passes, but the period was played at a fast clip, the ice being very smooth. There were 2 penalties.

The second period was pretty well divided without much to choose between the teams. Checking was close and the visitors pressed hard. Time and again upon the local net and were finally awarded by their only tally. Penalties were given to two players for minor infractions.

The last period was featured by close checking and a fine display of goal tending by both goal keepers. A result there was no score. Play was a bit rough and three penalties were dishd out.

HOCKEY LEAGUE

At a meeting over the week end held in Calgary it was decided to continue the Bow Valley Hockey League which will comprise the following clubs: Canmore Briguettines, Canmore Canadians, Exshaw, Inuit, and Strathmore.

A tentative schedule has been drawn up and submitted to the clubs, and we hope next week to be able to give you the definite schedule. In all probability the first game will be played in Strathmore Wednesday, December 30th at 8:30 probably with Exshaw.

This set up looks as though it will assure fans of an interesting Hockey Season.

SUNDAY SERVICE

On Sunday evening in the United Church the congregation greatly enjoyed the Christmas message so given by the Rev. Mr. Gilbert. A Christmas anthem, with solo by Miss Folk, was rendered by the choir.

At the close of the regular service a Vesper hour of the C. G. U. girls followed in which those taking part were Ellen Werling, Marion Archibald, Frances Jones. The ever effective candle lighting ceremony and Christmas Carol song, in subdued lights, added to the dignity and solemnity of the service. A very impressive picture was created, as the girls bearing their lighted candles, marched out singing the hymn "Follow the Glean."

THE WORLD OF WHEAT

By H. G. L. Strange, Director, Research Department, Scarle Grain Company, Ltd.

The price of wheat is a subject of the supplies available and as well by the demand for those supplies. It is because of the "demand" that we are sometimes disappointed when price does not rise as we think it should. Two years ago, for instance, the price of wheat was about 40¢ per bushel. At that time the demand for wheat or wheat and coarse grains, yet prices, to our disappointment, did not rise. Why? Simply because the demand fell to the same extent as the supplies had become decreased.

Happily, now and then, the reverse is the case. We have had a good instance recently.

During the past few weeks it became apparent that the crop of the Argentine was larger than anticipated, so naturally wheat prices began to decline. Suddenly unexpected demands for wheat appeared, not in spite of the larger supply, but because of the extra demand came from the Argentine.

As far as can be judged the extra demand came from the Argentine, which was a surprise. Private estimates of Argentina crop lower than expected—Canada starts purchasing wheat—Germany purchases Canadian wheat under new trade agreement—Fears that rust epidemic may develop in Western Canada should rains occur next summer heavy enough to overcome present lack of subsoil moisture.

Prices have tended to be lowered by the following—Harvesting of wheat now general in Australia—Feeding of Italy crop processing favorably—Italy's crop in North Africa—India shipping barley heavily—Argentina and Danubian countries make heavy shipments of maize and rye—Rain benefit nearly every Canadian crop.

have gathered here this evening to ex-

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the
Morning Ready to Go

The liver should move and the system
should be kept in motion. The liver is
the most important organ in the body
and it is the source of the bile which
is necessary for the digestion of food.
If the liver is not working properly,
the bile will be thick and sticky and
will not flow freely. This will cause
indigestion, constipation, and other
troubles. The only way to keep the
liver in good health is to take a
liver tonic.

Here and There

Opening three weeks earlier
this year with a 15-inch snow fall
on December 2, the skiing season
in Quebec province was off to a
flying start with special Canadian
Pacific trains as well as regular
crowded with enthusiasts on the
first weekend thereafter from
Montreal to the Laurentians.

The Empress of Britain will
start the winter cruise season
from New York December 29 on a
five-day voyage to the West In-
dies and Cuba. It will carry its
even night club of Broadway ex-
periences and a smart dance
band. The Empress of Australia,
between January 7 and March 25
will make six cruises of eight,
nine, and ten days to the Lau-
rentians to the West Indies, all from
New York.

Gift of a visit home for Chris-
tmas and New Year was the un-
usual present suggested for the
year and by G. E. Carter, general
passenger agent, Canadian Pacific
Railway, Montreal, as he explained
the company's proposal to
plan for sending transportation to
out-of-town friends and friends.
Arrangement of details of such
visits is extremely simple, Mr.
Carter said, and tickets cost no
more despite use of telegraph in
case of emergency and the dis-
count that the tickets will reach
the right person. This service is
not confined to Christmas and
New Year but is particularly pop-
ular at this season.

Canadian and world skiing en-
thusiasts will have an opportunity
to test the Rocky Mountains' claim
of having the best skiing in the
world equal to any when the Dominion
championship of the Canadian
Amateur Ski Association are held
from March 5 to 8 on the steep
slopes of 8,277-foot Mount Nor-
quay, four miles from the Cana-
dian Pacific Railway station at
Banff.

According to announcement by
Canadian Pacific Communications
Department, Christmas and New
Year's greetings of pre-arranged
message texts will be again avail-
able to the public this year. With-
in Eastern or within Western
Canada they will be accepted at
the low rate of 25 cents. Between
Eastern and Western Canada and
from points in Eastern and West-
ern Canada to points in the U.S.A.,
they will be accepted at 40 cents.
Rates are subject to government
tax.

A gift to the Province of On-
tario from the Kerry Hill Puck
Book Society, in North Wales, ten
ewes and one ram, of the world
famous Kerry Hill sheep are now
at the Ontario Agricultural Col-
lege, Guelph. The gift was ar-
ranged through W. Rupert Davies,
President and Editor of the Brit-
ish "White Standard", and the
sheep, known in Wales as "speck-
le-faced rentaggers", are ex-
pected to prove extremely popular
with stock breeders across Cana-
da. Experts consider the Kerry
Hill sheep an outstanding breed
noted for their adaptability to any
environment, and for their gen-
eral utility.

Canadian Pacific semi-stream-
lined, air-conditioned trains which
have been a feature of railway
development this year, have had
a big reaction on Christmas pres-
ents and are now being shown in
many of the big department
stores in the form of models.
These miniature trains are having
great success with the kiddies
who are given rides in them in
the stores and then have the op-
portunity of getting a toy train
for Christmas, built on the same
lines as the miniature.

THE WORLD OF WHEAT

(By H. G. L. Strange)
Director "Crop Testing Plant"

The "White-Collar Farmer" is the
producer's best money maker.

"Scientific Agriculture" is his
technical and correct name.

A little known, seldom understood,
rarely valued or rewarded at his true
worth, nevertheless the White-Collar
Farmer's quiet persistent efforts to
state some of thousands of practical
farmers to continue their operations
to stay on their farms.

Consider the new areas and count
less farms that were opened up in
the West by Marquette wheat, which
invaded hundreds of millions of dollars
to the pockets of Canadian farmers.

Dr. Wm. Saunders, and his son
Sir Charles Saunders, of the Dominion
Experimental Farm at Ottawa, are
responsible for Marquette.

Consider Edward and Garnet which,
in turn, opened up vast areas in
Northern Alberta and Saskatchewan.

The Saunders family made the first
crops for these varieties and Dr. L.
H. Newman, present Dominion Cerealist,
made the selection and then the
distribution to farmers.

Many other varieties of wheats,
oats and barleys, breads of livestock
varieties of flowers, fruits and berries
are the products of the plant breeders,
the animal breeder, the horticulturist
and the horticulturist—all scientific
agriculturalists, all for the most part
"White-Collar Farmers."

What a debt farmers and all of us
owe to these quiet, modest, unassuming
workers who so well serve agriculture.

Following factors have tended to
raise prices—Large purchases of
wheat by United Kingdom and Continent—
Hunger Great Britain and other
countries intent stocking up with
wheat—Broomhall increases his estimates
world imports by 15 million—
Brought in parts U. S. A. winter
wheat belt continues—World's rye
crop estimates less than last year—
South African maize crop considerably
less than last year.

These factors have tended to lower
prices: Large wheat crop needed under
favorable conditions in India—Argentina
harvesting starts with clear
weather on increased acreage; good
threshing yields reported—Argentina
suspects guaranteed minimum price
to farmers on wheat and linseed—
Greatly increased exports of vegetables
from Cuba to U. S. A.

meeting for the winter. Plans were
made to get the rink ready for curling
as soon as possible. Quite a good turn
out was present.

meeting and election of officers on
Friday afternoon. A splendid report
was given by the Treasurer Mrs. Roberts
which showed a very successful year
financially. Rev. F. Chapman
who was chairman for the afternoon

congratulated the President Mrs. Wm.
Rudd and her fellow workers on their
successful year, even though it was a
hard year. A report was also given by
the Secretary. A recess was called at
2 o'clock so everyone present could
have the opportunity of hearing the
farewell message of King Edward VIII
The election of officers resulted as

follows—President Mrs. W. Rudd, 1st
Vice, Mrs. C. Bradwell, 2nd Vice, Mrs.
A. Pigeon, Secretary, Mrs. G. Penroy,

As a Life Insurance Policyholder

Your Policy is Larger
Your Premium is Smaller

Because of Interest Earnings

YOU get more Life Insurance,
and you pay less for it, because
of interest.

The hard-earned savings that you
set aside each year for the financial
protection of yourself and your
family are invested for you by your
Life Insurance company in government
and municipal bonds, first
mortgages, public utility bonds, industrial
and other interest-bearing securities.

Because of the interest earnings
—the rental value of your savings
—your money makes more money,
and this earning power of your savings
is put to work for you from the
moment you pay your first Life
Insurance premium.

At that moment, the Life Insurance

company that you have
chosen to act for you begins accumulating
necessary funds to pay
your policy claim promptly and in
full when it falls due.

These funds are regulated by
Dominion and Provincial Insurance
Acts and are mathematically calculated.
To maintain them, both the
premiums you pay and the interest
earned on them are necessary.

The part played by interest is,
therefore, an essential part of your
Life Insurance contract. Your policy
is larger, your premium is
smaller, because of the additional
money that interest earnings add to
your savings, and this is true in the
case of 3,500,000 other Canadian
Life Insurance policyholders.
